

CASE STUDY

COLORADO BODY DIVINE

<https://www.coloradobodydivine.com>

Problems solved:

- Web Design
- ECommerce
- Security

Colorado Body Divine is a health and wellness online store whose owners approached Tactical Web Media stating concerns about their website being created and hosted in Squarespace. Limitations included design flexibility, SEO, and most importantly, eCommerce functionality.

Tactical Web Media produced a fresh new design based on a custom health and wellness theme, added textual content, designed a new logo, shopping cart with online transaction processing, website security, and a maintenance regimen.
